

# How to Play

You used to be a lonely farmer with no companions, save for you and your crops. However, last night you were visited by the holy Laura Dean in your dreams, who promised you salvation from an eternity of solitude if you used her sacred gift – a small green seed. Initially shrugging it off as a weird dream, you were shocked when you found a green seed sitting on your front porch. Fueled by what seems to be an act of divine intervention, you quickly planted it. Now you must use your tools, your crops, and your wit to ascend to the heavens above and escape a doomed existence!

## General Components

There are three different levels for the game.

The fertilizer you choose in the beginning represents the level you are playing.

Easy

Compost

Medium

Lauride

Difficult

Lauride Doomside

What are Deans?

Introducing our monetary system: Deans!

Dean is an honorary currency system inherited from Laura Dean.

In the game, it is commonly abbreviated as "D".

## Farming

In each plot, you can grow a plant that can be harvested and sold for money. Unavailable plots are occupied by golems, who eventually will leave as time passes to give you more plots to plant. Each plot has information about the plant's stage, days to harvest, and water level. The plant will die if you underwater or overwater the plant.

Sprout

Seedling

Mature

Water Levels

0 - no water at all, your plant is dead

1 - little water, danger of shriveling up

2 - just right amount of water

3 - a little bit too much water, danger of overwatering

4 - way too much water, your plant is dead

## Market

You can purchase new plant seeds and fertilizers in the market. After you harvest your crops, you can also sell them through the market to gain more Deans.

The prices of crops and seeds change over time depending on the current economy and weather. Make sure to observe before buying and selling.

## Ladder

Use your fertilizers to grow the ladder plant. When your ladder's height reaches 10, you will ascend to Laura Dean!

## Inventory

The inventory tells you how many of each item you have, and it has a maximum capacity of 40.

## Natural Disasters

The path to greatness was never easy... There may be natural disasters that impede your journey to Laura Dean. But worry not brave farmer! You will ascend to greatness.

Monsoon

It's always raining somewhere...your plots are flooded with water; make sure to save your plants before they die!

Drought

You've always hated the heat...and so do your plants! Your plots are drained of water; make sure to water them extra to prevent them from drying up!

Asteroid

Boom! An asteroid may crash into your ladder plant and reduce its height.

Enjoy Your Ascension to Laura Dean!
